We have three huts in the middle of the forest. The capacity of each cabin is for two people with double bed or twin beds . We can introduce a small bed for a child (a).

The cabins have an outside rustical construction since we want you to know the material used in the area for building, bamboo, volcanic stones and clay tiles. However, inside they are very pretty, with wooden floor and walls. There are no air conditioning because the huts have their natural ventilation.

This is the aspect of the cabins on the inside. They have three windows, each with strainer for protection against mosquitoes. It is very rare that we have mosquitoes but sometimes they proliferate and then the bed is equipped with their nets. The cabin has its own bathroom and toilet, as well as a small desk. On the outside, rocking chairs and a hammock

The former House of the Owners has been fitted out with five simple rooms, i.e. for a capacity of 13 persons, as there is in a room two bunk beds (4 people), in another room there is 1 bunk bed and a single bed (3 people), and three rooms with only one bunk bed (2 persons).

The House is equipped with its own kitchen, refrigerator and kitchen utensils. If you want to Cook, you can rent the kitchen at a very reasonable price. Ideal for the weekend from a large family. The swimming pool is near the House.

Bedrooms from 2 to 6 people price per person 12.00 dollars.
